COOL APPS!

Do you ever use an app for playing chess, doing puzzles or playing computer games? Are you good at making things in real life? Try doing them online!

With these apps you can <sup>1</sup> ... any hobby! These are my three favourite hobby apps:

**ORIGAMI**

Origami is an old paper-folding craft. The app tells you how to make birds, flowers, animals and many other things. First, choose what you want to make. Then watch the video to help you create a piece of origami.

A bird

**SKY GUIDE**

This is a great app! Hold your tablet or phone up to the sky and it tells you the names of the different stars. This app also tells you a lot of information about the different planets in the solar system.

**VIDEO EDITOR**

We often use our phones and tablets to take videos. This app helps you to edit your videos and make them look great. You can add your voice, music and different kinds of sounds. Use the app to <sup>2</sup> ... videos to your <sup>3</sup> ... site.

Do you want to find a new hobby? Go <sup>4</sup> ... , type in what you are good at and you can find a list of hobbies. Remember - always ask your parents before downloading any apps!

People usually play polo on horses but, here in Dubai, people sometimes play polo on camels. They hit the ball with very long sticks. I don't play because I'm not good at hitting the ball. I like to watch!
